About Choicecomm

Founded in 2003

Choicecomm LLC, a Maryland company, provides IT Infrastructure products for IT Networking, Network Infrastructure, DCIM, Fiber and Copper cabling, power, cooling, test, and hardware products to federal, state, and local governments and commercial customers. Choicecomm has a professional, "fine-tuned", product sales capability through many years of vetting manufacturers and suppliers in the industry to find those that deliver products on-time with quality service.

Choicecomm understands the needs of the Federal Government and has successfully held a GSA IT schedule 70 since 2005. The company has developed lasting relationships with large and small manufacturers and government customers as a result of our technical knowledge of products and attention to details before and after a sale.
