

KPMF SERIES

KPMF MSED620-PP

Water Filtration

Single Manifold Part #: **KP-300-777**

Replacement Cartridge: **KPMF MSED620-PP**

14"

29"

APPLICATIONS

Ice Machine

Coffee/Tea

Espresso/
Cappuccino

Steamers/
Combi-oven

- Optimal for heavy sediment and dirt capacities ($\geq 3+$ micron particulate filtration)

DESIGNED TO

- Remove particulates to provide improved taste, clarity and appearance
- Collect and trap dirt, debris and sediment in water down to a 3 micron particulate size
- Improve the performance, reliability and life of your downstream equipment and/or additional filters
- Reduce scale formation and pitting to prolong equipment life

PERFORMANCE

Scale Capacity	Up to 100K gal @ 10 gpm
Micron Rating	3
Min./Max. Pressure	40 - 100 psi
Min./Max. Temp.	40°- 100°F
Inlet/Outlet Size	3/4" FNPT
Shipping Weight	13 lb
Dimensions (W/D/H)	14" x 9" x 29"

Performance may vary based on local water conditions

FEATURES & BENEFITS

- Provides 20 times greater dirt and sediment holding capacity than the SED620-PP
- Time released polyphosphate increases protection of equipment from scale build up
- 20" Sediment filter can be used as a single head stand alone pre filtration system or in conjunction with any KPMF/SMF water filtration systems
- Compatible with any double, triple and quad KPMF/SMF manifold system
- Safeguards your fountain beverage machines from the damaging effects of sediment, dirt and debris, preserves filter life and helps to reduce equipment downtime
- Delivers optimal taste and clarity of your company's tea/coffee beverage specifications and improves the clarity of your ice to enhance guest satisfaction
- Helps to preserve RO membranes by collecting dirt and debris upstream to help prolong membrane life
